Immunization Audit

Our facility has been randomly selected by the Missouri Department of Health and Senior Services for an immunization validation visit to be conducted by Bureau of Immunizations on April 22. All children's immunization records will be reviewed during this visit to ensure they are adequately immunized against vaccine preventable diseases. **Because of this audit, if you have not already done so, we are requesting that parents provide us with the most up-to-date shot records for your child.** We will be reviewing all children's files in the next couple of weeks to prepare for this audit. If you receive a request for updated records, we will need it within 5 business days of the request. Thank you for your help!
